

## Online MS in Biomedical Engineering

The [online Master of Science \(MS\) in Biomedical Engineering](#) can be your path to a management role in one of the most rapidly changing and impactful fields of engineering. The biomedical engineering program at Case Western University is one of the oldest in the world, and it has produced cutting-edge research and offered an elite-level graduate education for more than 50 years. The online MS in Biomedical Engineering is a professionally-focused degree that builds on this tradition, preparing you with the practical skills and knowledge you'll need to lead in organizations that develop potentially life-saving medical technologies.

### Program Benefits

- Engage [100 percent online coursework](#) specifically designed to address the practice of engineering in today's business environment
- Earn a practice-oriented degree that does not feature a required master's thesis
- Learn from the same renowned faculty who teach in our engineering programs on campus and benefit from their years of leading-edge research experience
- Pair with on-campus master's degree students for research projects and presentations
- Enjoy professional support, including entrepreneurial opportunities through [CWRU LaunchNet](#) and remote or in-person appointments with CWRU's innovative on-campus academic makerspace, [Sears think\[box\]](#)

### Online Program Structure

- 30 credit hours
- 10 courses (2 core BME courses, 2 core engineering courses, 2 BME specialty courses, 2 translational courses, 2 technical electives)
- Can be completed in as few as 18 months
- 3 annual starts: spring, summer and fall

### Admissions Requirements

- Completed [online application form](#)
- **Bachelor's degree** (Bachelor of Science in engineering preferred)
- **Official transcripts**
- **GRE scores:** In response to concerns about the COVID-19 virus, MS applicants for the summer and fall 2020 terms will not be required to submit GRE scores
- **Personal statement** of one to two pages
- **Resume/CV**
- **Two letters of recommendation** from professional or academic sources (non-family)
- **Application fee:** \$50 (Speak with an advisor about waiving your fee)
- **International Applicants: TOEFL, IELTS or PTE scores\***
  - In response to concerns about the COVID-19 virus, we are suspending certain requirements for the summer and fall 2020 terms. International applicants may be eligible for conditional admittance; please speak with your advisor to learn more

\*International students whose first language is not English must demonstrate English proficiency by submitting Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS) or Pearson Test of English (PTE-Academic) scores. See our [requirements for international applicants for details](#).

OF ENGINEERING

CASE WESTERN RESERVE  
UNIVERSITY

## The Curriculum

### BME Core Courses:

Required:

**EBME 401D** Biomedical Instrumentation and Signal Processing

Choose one of the following:

**EBME 451** Cellular and Molecular Physiology

**EBME 432** Quantitative Analysis of Physiological Systems

### Engineering Core Courses:

Required:

**EPOM 400** Leadership and Interpersonal Skills

Choose one of the following:

**EPOM 405** Applied Engineering Statistics

**EPOM 407** Engineering Economics and Financial Analysis

### BME Specialty Courses (Choose 2):

**EBME 406** Polymers in Medicine (Materials)

**EBME 410** Medical Imaging Fundamentals (Imaging)

**EBME 421** Bioelectric Phenomena (Neural Engineering)

### Translational Courses:

**EBME 440** Translational Research for BME

**EBME 471** Principles of Medical Device Design and Innovation

### Technical Electives (Choose 2):

**EMAE 456** Micro Electro Mechanical Systems and Biomanufacturing

**EPOM 401** Introduction to Business for Engineers

**EBME 601** Research Projects

## Join a new breed of engineering leaders. Transform your career.

Interested in advancing to a leadership role in a technology-forward medical organization?
