

ONLINE MASTER OF SCIENCE (MS) IN MECHANICAL ENGINEERING

Case School of Engineering is expert at educating and helping to prepare students at the graduate level to conduct research for the benefit of society. The graduate program of the Department of Mechanical and Aerospace Engineering helps prepare students for leadership roles in the industry, government and private research and education. Graduates with their MS in Mechanical Engineering pursue careers as product designers, research and development engineers, analysts, consultants, educators and more.

PROGRAM OVERVIEW

The program is 27 credits in length, consisting of nine courses.

- Forward-thinking and challenging coursework delivered in an engaging, immersive online environment
- Faculty who bring expertise and experience to the online curriculum
- Department that has a rich history of research and teaching engineering
- Learn fundamental tools and skills necessary to open up a wide variety of possibilities in the professional world
