Online MS in Systems and Control Engineering

The online Master of Science (MS) in Systems and Control Engineering prepares you to manage and conduct research across a variety of systems applications. Housed in the Department of Electrical Engineering and Computer Science, the MS in Systems and Control Engineering offers a robust curriculum that touches on research areas that include bioinformatics, data mining and visualization, systems biology, wind turbine systems and control, computer engineering, and more. This highly customizable degree combines professional skills development with training in the technical area of your choosing.

**Program Benefits**

- Engage **100 percent online coursework** to build your expertise across systems and control applications
- Strengthen your management potential with a curriculum designed to augment your technical skills with professional acumen
- Earn a practice-oriented degree that does not feature a required master’s thesis
- Learn from the same renowned faculty who teach in our engineering programs on campus and benefit from their years of leading-edge research experience
- Work collaboratively with classmates in select live online environments for group assignments
- Enjoy professional support, including entrepreneurial opportunities through CWRU LaunchNet and remote or in-person appointments with CWRU’s innovative on-campus academic makerspace, Sears think[box]

**Admissions Requirements**

- Completed **online application form**
- **Bachelor’s degree** (Bachelor of Science in engineering preferred)
- **Official transcripts**
- **GRE scores** (a waiver may be available to qualified applicants)
- **Personal statement** of one to two pages
- **Resume/CV**
- **Two letters of recommendation** from professional or academic sources (non-family)
- **Application fee**: $50 (Speak with an advisor about waiving your fee)
- **International Applicants:**
  - TOEFL or IELTS scores
  - **Evaluation of Foreign Studies** for any academic records in a language other than English, completed by any NACES member

**Online Program Structure**

- 30 credit hours
- 10 courses
  - 5 core courses
  - 5 electives
- Can be completed in as few as 18 months
- 3 annual starts: spring, summer and fall
The Curriculum

Core Courses:
EPOM 400 Leadership and Interpersonal Skills
EECS 401 Digital Signal Processing
EECS 407 Engineering Economics and Financial Analysis
EECS 408 Introduction to Linear Systems
EECS 416 Convex Optimization for Engineering

Electives (Choose 5):
EECS 404 Digital Control Systems
EECS 411 Applied Engineering Statistics
EECS 468 Power System Analysis I
EMAE 450 Advanced Engineering Analysis
EMAE 481 Advanced Dynamics I
EMAE 487 Vibration Problems in Engineering
EMAE 494 Energy Systems
EBME 410 Medical Imaging Fundamentals (Imaging)

Join a new breed of engineering leaders. Transform your career.
Are you ready augment your technical systems and control knowledge and move into a leadership or research role? Learn more about our online MS in Systems and Control Engineering program by reaching out to an Admissions Advisor at 855-500-3840 or admissions.case@elearningctr.com.
